Our Team:

Clinical Leader - Dr. Botinov
Podiatrist - Dr. Kaplan
Infection Disease Physician -
Dr. Ramasubramani
Wound-certified ADON -
Marilou Ramos
Unit Managers
Dietitian
Rehab Therapy Manager

Dr. Botinov was trained in Moscow, Russia and practiced there until 1991. In 2003, he started practicing in New York before coming to New Jersey in 2013. His expertise includes Bariatric, Laparoscopic and General Surgery.

Marilou Ramos has had her wound certification through the National Alliance of Wound Care since 2009. She has been in in Sub-Acute and Long Term Care for more than 16 years.

Our Program:

- Our team does weekly rounds to tour each floor and assess all wounds. This includes pressure, potential for pressure, vascular, skin tears and surgical.
- All patients are assessed with feedback given to surgeons for a poorly healing wound.
- Following weekly rounds, the Dietitian and Therapy Manager discuss supplements, needed devices, restrictions with therapy or time out of bed.

Our Approach:

Our aggressive approach includes:

wound vacs, pico vacs, GTube replacements, pain management, leg compression treatment, bedside surgical debridement, & palliative care
