

# WOUND CARE

## AT VENETIAN CARE & REHAB

### *Our Team:*

- Clinical Leader - Dr. Losman
- Dr. Raoff, Infection Disease Physician
- Dr. Raoff's Nurse Practitioners
- ADON, Elaine Moore
- Unit Managers
- Dietician
- Rehab Therapy Manager

Doctor Losman was trained in Belgium, France and South Africa. Initially, he specialized in cardio-thoracic surgery, and was one of the earliest heart transplant surgeons in NJ. In 2009 he turned his attention to wound care.

Elaine Moore has had her wound certification through the Wound Care Education Institute since 2008. She has been in nursing for over 30 years, and long term care for over 25 years.

### *Our Program:*

- Our team does weekly rounds to tour each floor and assess all wounds. This includes pressure, potential for pressure, vascular, skin tears and surgical.
- All patients are assessed with feedback given to surgeons for a poorly healing wound.
- Following weekly rounds, the Dietitian and Therapy Manager discuss supplements, needed devices, restrictions with therapy or time out of bed.

### *Our Approach:*

Our aggressive approach includes:  
wound vacs, pico vacs, bedside surgical debridement, & palliative care.
